1. Presented culm prices effective for 3 month from date of issue
2. Prices shown are full prices, no additional VAT is charged (not VAT registered)
3. Bamboo is treated against fungus and insects using Boron solution, which is non-toxic to humans, pets and wildlife.
4. Boron (Boric Acid & Borax) is a non-fixing treatment and as such bamboo should ideally be kept dry / under cover for best results.
5. Delivery is charged separately. Collections are welcome, please call Kanji to arrange. Contact details below.
6. When placing orders, please indicate Base Diameter and desired lengths as per the table below. Custom lengths are possible.
7. Once you have placed your order, we will send you a formal quotation.
8. There may be up to a 3 month waiting period on certain stock due to high demand.
